## **Interim Report for the period January - September 2020**

“The Bank of Åland continues to improve its situation, despite the prevailing uncertainty in the world around us. Because of our improved situation, this quarter we can report our best net operating profit ever, EUR 10.7 M. Our business volume, actively managed assets, deposits and lending have all reached new all-time highs thanks to a continued influx of new customers.

“We believe that in terms of net operating profit, we are on our way towards full-year earnings that are better or significantly better than our record-setting 2019 profit of EUR 33.2 M. I am pleased to report that there is a continued healthy demand for the relationship bank we wish to be and that we have employees who – despite the aggravating circumstances of the pandemic – are capable of delivering this.”
